750

X6750 | PRODUCTION COLOR: MYSTERIOUS RED SUNGLO

The perfect play of black against red, this Harley-Davidson Street™ 750 model strikes a muscular pose. The black and aluminum Burst and Edge Cut accessories complement the bike's factory-accented cylinder fins, and the black detachable passenger backrest and luggage rack add practical support without overshadowing the Dark Custom™ attitude.

## STREET 750 TRANSFORMATION

This Harley-Davidson Street™ 750 model starts out as the perfect combination of agile, liquid-cooled efficiency and flat-out urban fun—all with classic Dark Custom™ attitude.

## STREET SMARTS

From there, it doesn't take much to turn the Harley-Davidson Street™ motorcycle into a one-of-a-kind custom masterpiece. This bike's classic Red & White Two-Tone custom paint, Edge Cut grips, Burst Collection foot controls and other bright accents add a traditional "Harley" touch to this Street 750

model's basic black approach. The Dark Custom™ medallions and the Screamin' Eagle® Edge Cut muffler end cap complement the 750's machined aluminum wheel and cylinder highlights, while the removable passenger backrest and luggage rack offer practical comfort and support for two.

FIT

One size can fit all. The nimble Harley-Davidson Street™ motorcycle is designed to accommodate a wide range of body types. Equipped with a Tallboy® seat or Reduced Reach seat or bar, the bike can be tailored to accommodate almost any rider.

FUNCTION

Comfort, convenience and conspicuousness: The basics of everyday riding. Adding a passenger backrest, luggage rack and soft luggage lets you pack for your commute or for a weekend away from the office. And the Daymaker™ LED headlamp makes sure others notice you.

STYLE

The Harley-Davidson Street™ motorcycle is the perfect blank canvas. Its Dark Custom™ roots let you establish the bike's personality from day one. Make a sinister statement in black, or dress it up in chrome. Determine a path that's right for you, and layer on the details that express your soul.

PERFORMANCE

The 750cc H-D® Revolution X™ liquid-cooled V-Twin engine delivers authentic Harley-Davidson® sounds every time you twist the throttle. And you can add a little extra punch with system-matched Screamin' Eagle® performance parts.

## CARE AND MAINTENANCE

While it's tempting to use standard "auto parts store" cleaning and service supplies, hold out for the real thing. Genuine Harley-Davidson® coolant, oils, filters, batteries and service parts are engineered for the unique surfaces and operating conditions your Harley® motorcycle will encounter.

## CRAFTSMANSHIP

We design and build the bikes, so we don't need to "reverse-engineer" parts to try and make them fit. Everything we make is rigorously tested to ensure it meets our high standards, and the finishes of our accessories match the bike's surfaces for a consistent appearance.

## Windshields & Handlebars

### A. QUICK-RELEASE SUPER SPORT WINDSHIELD

Reduces the pounding of wind and shower of bugs but keeps the wind-in-the-hair feeling. Ideal for a cool morning ride, the sleek profile of the Super Sport Windshield hugs the front headlamp for a sporty look. The windshield mounts to the fork tubes with elegant die-cast lever locking clamps, so the windshield does not require any "leave-behind" docking hardware. You get quick on-and-off convenience and a clean, custom look. No tools are required and the kit includes everything needed to install the windshield.

**57400192** Light Smoke. **\$314.95**

### B. REDUCED REACH® HANDLEBAR\*

This handlebar is designed to bring the controls 2 inches closer to the rider for increased comfort. ### C. DAYMAKER™ LED HEADLAMPS

Cut through the night. Harley-Davidson® LED Lamps are brighter and whiter in color and provide a superior light pattern over standard incandescent lamps. Compared to the yellow light of a traditional halogen bulb, the LED lamp produces a "Daylight Color Impression" that appears more natural to the user. Headlamps feature horizontal "D-shaped" lenses that focus light into a pool in front of the motorcycle and separate high beam and low beam projector lenses that provide a focused beam of light ahead. Lamps are available in your choice of brilliant chrome or gloss black background to match your styling direction. The solid-state LEDs are designed for long life and the shock- and vibration-resistant lamp assembly mounts into existing light housings. Installation is quick and easy and the plug-in lamps connect to the factory headlamp wiring. The LED lamps are DOT and ECE approved.

**D. CAFÉ SOLO SEAT**

**D. CAFÉ SOLO SEAT**

There's something about the placement of the rider that makes the Cafe Solo Seat special. The one-up design and the high back pad hold the rider in place and provide a direct connection to the bike. You sit "in" the bike and your hands and feet reach naturally to the controls. The low-slung pad, narrow nose and the tapered tail enhance the bike's sporting profile and pays homage to the heritage of the iconic Café Racer style.

**52000168** **\$219.95**  
Fits '15-later XG models. Seat width 11.25".

**E. REDUCED REACH® SEAT**

Designed specifically for riders requiring a close to the bar riding position, this Reduced Reach® Seat is shaped to place the rider in a comfortable and confident relationship to the hand and foot controls. The seat moves the rider approximately 1.5" lower and 1.25" forward and the 1.25" slimmer front profile brings the legs closer together for an easier reach to the ground at a stop. The Reduced Reach Seat features a stepped profile that keeps the rider from sliding back during acceleration.

**52000123** **\$201.95**  
Fits '15-later XG models. Seat width 10.25"; passenger pillion width 6.75".

**F. TALLBOY® SEAT**

The correct riding position can help a tall rider sit comfortably on the bike, and avoid leg cramps and back strain during a long day in the saddle. For riders with a longer inseam, a Tallboy® Seat will put you on the road to fatigue-free riding. Designed to move the rider 1.25" up and 2.5" back from the stock seating position, a Tallboy Seat can eliminate the "knees-high" riding position and effectively places the body for a natural arm and leg reach to the controls.
